

Oblivion

Systems online. Oxygen stable.

Location: UNKNOWN

Memory Core: WIPED

You open your eyes aboard an unfamiliar spacecraft. Everything is silent — too silent. No logs, no coordinates... no idea who you are. All that remains are scattered fragments — directives, echoes of voices, cryptic flashes of action.

Your mission? Lost. Your role? A mystery. Your only option? Retrace your steps.

This isn't just a treasure hunt. It's a journey backward through time, riddled with encrypted ship commands and physics-based puzzles — each clue unlocking a forgotten piece of your identity.

Not all teams will take the same path. But all must face the same truth.

Memory is your map. Logic is your weapon.

Welcome aboard AETHER-47.

YOUR PAST IS YOUR TREASURE!!

Prelims – A fast-paced **quiz & puzzle challenge**:

1. **Quiz** (10–20 numerical questions) hides key answers.
2. Selected answers feed **math functions** → generate numerical outputs.
3. Outputs match **ASCII codes** → convert to text.
4. Solve the resulting **cipher** to find the final phrase.
Accuracy is king, but speed is your ally.

Finals – The **Treasure Hunt Across Campus**:

- Follow clue trails between stations.
- Solve mini-puzzles to get a memory fragment to get to the next station.
- Gather hints for the final **Vault Challenge** and decode the ultimate message.

Rules

- **Team size**: 2–3 participants.
- **Laptops allowed** (no internet except code documentation/ASCII tables) only for prelims.
- All materials (puzzle sheets, cipher keys, ASCII tables) provided.
- Strict **fair play** – malpractice = disqualification.
- Grading: Time and accuracy(50/50 weightage).

Prize:

1st place: 2500 INR

2nd Place: 1500 INR
